### Class with Deborah Tirico

Come join us to see how fast, fun and forgiving felted wool appliqué is. Deborah was educated as a graphic designer. She turned to quilting when the graphic design profession became digital. She is an avid member of the EGA, the Appliqué Society and the American Quilting Society. Deborah has taught classes in felted wool appliqué at EGA chapters, quilt guilds and shops. She teaches appliqué, hand quilting and her own designs in felted wool appliqué.

At this class we will be taught Deborah's technique of felted wool appliqué. This includes the following skills:

**Felting wool** Discussion on felting and recycling wool will encourage students to make their own wool for appliqué and other creative applications through recycling clothing or felting yardage.

**Pattern making** Freezer paper methods in pattern making will illustrate effective methods. Students will learn simplified techniques using available household products.

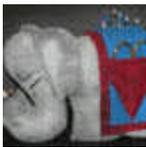

**Stitches** Students will learn appliqué techniques using the tack stitch. A unique method for using the needle on a slant provides for a sculpting of the wool to create a dimension to the work. A new method for the blanket stitch will also be illustrated.

We will meet at **Duncaster** for this day, and the times for the day will be 10am to 3 pm. When registering, please choose one of the following kits:

**Strawberry Sewing Kit - \$33** (click to see an enlarged image)

### News of Important Embroidery Exhibit

Embroiderer's Guild of America Chapter Member:

I am writing to extend a cordial invitation to you and your community to our upcoming exhibition, ***English Embroidery from The Metropolitan Museum of Art, 1580-1700: 'Twixt Art and Nature.***

This special and exciting exhibition highlights The Metropolitan Museum's superb collection of Tudor embroideries, many of which have not been on public view since the 1960s. Organized thematically to convey the distinctive relevance of embroidered textiles in the everyday life and culture of Tudor England, the show will also reveal the complex technical skill and iconography of the embroideries.

Our exhibition-related education program department has organized a wonderful series of public programs and lectures that might interest your EGA chapter members. We also offer guided and self-guided tours for a nominal fee. If you would be interested in finding out more about our exhibition, please contact me at your earliest convenience.
